

THE NATIONAL NUMERACY NETWORK

NNN 2021-22 Annual Meeting: CALL FOR PAPERS

March 4-6, 2022. Hybrid: Face-to-face or Online using Zoom

Would you like to present at the 2021/22 Meeting of the National Numeracy Network (NNN)? This hybrid meeting (www.nnn-us.org) will attract scholars from across the globe to share their ideas involving Quantitative Literacy (QL), Statistical Literacy (SL) and Quantitative Reasoning (QR). The editors from the NNN's peer-reviewed, open-access journal, *Numeracy* (<https://scholarcommons.usf.edu/numeracy/>), will discuss turning your talk into a published article. NNN members will attend each session and give real-time feedback to each presenter. All presentations will be recorded and made available to NNN members via the NNN website.

We invite educators to submit proposals that highlight topics such as:

- QL/SL/QR coursework as a pathway to graduation and/or participation in STEM majors,
- Connecting QL/SL/QR with social justice and human progress,
- Connecting QL/SL/QR with various disciplines: STEM, social sciences and the humanities,
- Connecting QL/SL/QR with literacies: information, data and statistical,
- QL/SL/QR centers (goals, resources, issues) and workshops (math across the curriculum), or
- Teaching QL/SL/QR to teachers in mathematics and other quantitative majors.

Types of Presentations:

1. **Presentations (25 minutes):** 20 minutes for presentation; 5 minutes for questions & comments.
2. **Facilitated discussions (55 minutes):** Facilitators will introduce a topic for 20 minutes, and then lead a discussion or activity for 35 minutes.
3. **Working groups (55 minutes):** Individuals interested in discussing particular topics or issues that are relevant to the teaching and learning of quantitative reasoning may propose a working group. We anticipate that there will be up to three working groups in the program.

Proposal Submission Guidelines:

Please include the following in your proposal. Submit directly to Luke Tunstall <stunstal@trinity.edu>.

Deadline: Friday Jan 14, 2022

Proposals should be a **maximum of one single-spaced page**.

1. Name, professional title, and institutional affiliation of all contributors.
2. Title and mode (in-person face-to-face or remote/Zoom)
3. Type of session (paper/facilitated session/working group)
4. Session description and justification: Clearly identify which topic you will address, your relevant experience, and--if proposing a facilitated discussion--how you will engage the participants. Proposals are expected to highlight relevant aspects of the chosen topic that address developments in the field while sharing best practices or innovative solutions.
5. A 100-150 word abstract for the printed program.
