Join us for a **FREE** active and engaging two-day conference on Quantitative Reasoning and Numeracy. The conference is facilitated by the National Numeracy Network ([http://www.nnn-us.org/](http://www.nnn-us.org/)).

Attendees will learn to incorporate quantitative reasoning (QR) and numeracy into their curriculum in order to develop critical thinking in students, provide students with foundational skills, and to help close equity gaps. Participants will interact with the concepts of QR in real-world scenarios and discuss incorporating QR into their classes.

At the end of each day, you will be MATCHed into cross-discipline groups and actively work with colleagues to update or create new lessons for your courses. Together, we can explore the possibilities of quantitative literacy and numeracy within our disciplines!

**HOW TO REGISTER?**

https://match-nnn.eventbrite.com

**WHEN and WHERE?**

Friday 9/20/19 7:30 am-3:30 pm  
Saturday 9/21/19 8:00 am-3:00 pm  
Palomar College - San Marcos Campus

**WHO SHOULD APPLY?**

All faculty from every discipline

Contact: [LGuerrero@palomar.edu](mailto:LGuerrero@palomar.edu) or [SMayo@palomar.edu](mailto:SMayo@palomar.edu) for more info.

**Palomar MATCH goals:**

- Support faculty in creating projects and/or courses that make the mathematical/quantitative reasoning dimensions of their disciplines more explicit.
- Support faculty in choosing the degree to which they want to infuse math/quantitative reasoning into their curricula.
- Provide students with experiences that demonstrate the utility, beauty and value of mathematics/quantitative reasoning in their studies and everyday lives.
